

Ceremonial swords and sabers UK

Tradition & prestige

Tradition & prestige

Founded in 1830, renowned manufacturers of bladed weapons, the BALP establishments wrote the most beautiful pages of French forges. Taken over in 1954, the reputation and the quality of the productions spread to France and beyond the borders. Successive generations have wanted to maintain tradition and know-how.

Today, we therefore have the honor of continuing and developing the BALP brand, which remains a quality benchmark. Thus our company, with the experience of 4 generations of forging traditions, guarantees you a real knowledge of the products. Its recent development is also part of an evolving world, whose expertise from different countries has been pooled to offer ceremonial equipment meeting the needs of army corps.

Find our full range of swords and sabers for military schools, Republican guards around the world. But also the productions of accessories and uniforms
